Crit Hit

Book Design

Video games are one of the most popular forms of entertainment in the modern world, from as far back as Pacman to newer releases like Genshin Impact. But have we taken time out to study how they affect us psychologically? People have different reasons for gaming: from letting steam off to simply enjoying a virtual space with friends. This issue gives its readers a closer look at the possible effects that this hobby may have on them, be it positive or negative.

Letters To A Young Poet

Book Design

The theme of the images is 'patience', as they depict actions or occurrences that usually require a long amount of time eg. waiting for paint to dry, the ripening process of a bell pepper, knitting a quilt, etc.

view wins and loses; its opposite: Works of art are infinitely lonely, and no approach to them is as useless as criticism. Only love can give birth to art, and only love can judge it; there is no other way. Always trust yourself and your feelings, and do not let anyone force you into a discussion; if you prove to be wrong, the natural growth of your inner life will gradually, in time, lead you to the right path. Let your love come to you own quiet, undisturbed development, which like all progress moves from within, from the depths of the soul or heart. It is all gestation and birth. Let every impression, every joy and sorrow, every pain and pleasure, in darkness, in the unspeakable, the unconscious, inseparable by one's understanding, and wait with an open heart for the moment when a new clarity is born; that alone is to live the life of art. And when that moment comes, In this there is no measure of time, a year, ten years are nothing. Being an artist means not much more than being a man who loves his work which does not force to say, but stands severely silent. If you are patient, you will see that summer might fail to follow; it will come; but it comes only to those who are patient, who wait as if for a secret. And when it comes, it is great and as powerful as primal instinct; it has its own will, and it is not to be resisted. It is like a volcano; it is a sexual power; it is always virile.

Richard Dehmel: my experience with his books (and, incidentally, with the man, whom I know slightly) is such that when I once spoke of the next book I was about to publish, he said: You have characterised him well enough with your phrase: 'Living and writing with ardour.' And, to my surprise, he added: 'He is not only close to the sexual, its pain and its pleasure; that two appear to be really the two forms of his art: the sexual and the blues. And if instead of "with ardour" one were permitted to say "with ardour and with blues", in the true sense of the word, free of any trace of religious stiffness, then his art would be truly great and interesting. He is a poet of the blues, a poet of great and as powerful as primal instinct; it has its own will, and it is not to be resisted. It is like a volcano.'

But it is sexual power in an always virile way, a sexual fire of poesy (yet that is one of the hardest things for the creative artist: who must always be patient, and who, because of his impatience, if he does not wish to rob them of their impatience and their untouched innocence). Had then, when sweeping through his being a arrival at the outside of this world,

New World Symphony

Poster

This poster advertises Antonín Leopold Dvořák's most popular pieces, Symphony No. 9 in E minor, "From the New World", Op. 95, B. 178 (Czech: Symfonie č. 9 e moll "Z nového světa"), popularly known as the New World Symphony. A tape recording of it was taken by Neil Armstrong into space on the Apollo 11 Mission. The piece is nicknamed 'The New World' because he wrote it during his time in the United States while simultaneously longing for his home.

OREO is one of the most recognizable cookie brands in America if not the whole world. The OREO cookie comes in many flavors and sizes. Sometimes they're covered in chocolate, come in the form of an ice cream, and have even been adapted into drinks. At the end of the day, it all comes down to the original humble cookie: white cream sandwiched by two charcoal-colored disks.
